

P18435.A08

REMARKS

By the above amendment, the specification is corrected to include the application number of the application entitled "Low Methoxyl Pectins, Processes Thereof, and Stabilized Aqueous Systems Comprising the Same", which is incorporated by reference in the specification of this application. Moreover, this amendment was discussed with the Examiner during a telephone conversation, but apparently has not been entered by an Examiner's Amendment. Therefore, the present amendment is being filed. Applicants respectfully submit that entry of the present amendment is proper under 37 C.F.R. 312(a) since it does not require an additional search or examination.

If there should be any questions about this matter, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
Gary LUZIO et al
